Hot Stapler

The hot stapler is a cordless tool that enables the panel repair technician to repair all types of vehicle plastics simply and easily.

The staple gun is easy to use and very controllable.

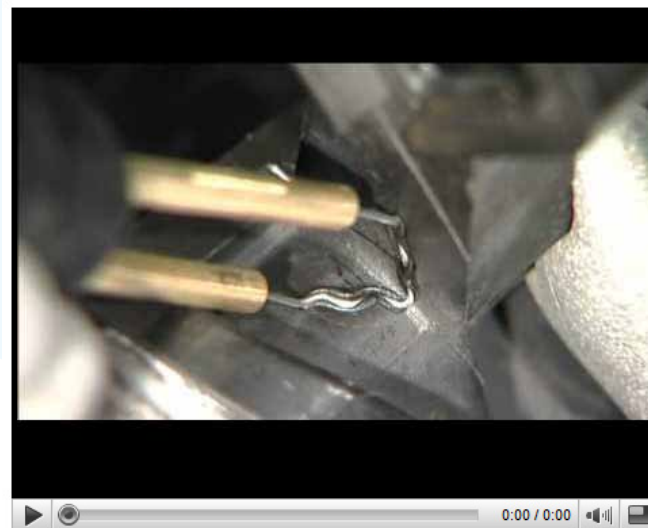

Simple cracks to bumpers with holes become more cost effective to be repaired speedily and easily.

The complete system comes in a carry case with selected tools, staples, mesh, plastic rods and plastic repair pads enclosed.

Replacement consumables are available and are reasonably priced.

Contact us for a demonstration of this fantastic tool TODAY!.
